

G7M

BRANDING AND DESIGN FOR
SOCIAL IMPACT AGENCY

G7M - GEMI 7 media agency was founded in 2011 in CAIRO , that is founded on the premise that client results and stunning design go hand in hand. They provide 360 degree solutions from strategy and design to development and printing services .

G7M is a full-service marketing agency offering top notch creative marketing solutions in many areas that includes but not limited to Branding, Digital Marketing, Web Design and Development, and Mobile Applications. From the day we started till now, we had a great pleasure of working with extraordinary clients representing a wide range of businesses, from startups to market leaders, in the MENA region and beyond.

Why Us – We’ve got six simple reasons for you.

- Experience

We have more than two decades of collective naming and branding experience across every industry, around the world.

- Process

We leverage smart, rigorous processes to deliver insight and results at every turn.

- Strategy + Creativity

Everything we do is steeped in strategy. That helps us the push the limits creatively.

Quick Facts

- Based in Cairo, working globally
- 10 staff members strong
- Expansive networks of strategy, marketing & design pros
- 8+ years in business
- 100+ clients – direct & agency
- Printing house

TALANTED TEAM

Our team consists of a group of young, talented, experienced, passionate, results-driven, and tech-savvy individuals who strive everyday to do their best and make a real impact... Worldwide!.

WE ARE FUSE

In the truest sense, we are a team greater than the sum of its parts. We bring real-life perspective derived from real-world experience. Our professional backgrounds are in sync with many of our clients.

OUR APPROACH

We craft brand messaging that resonates with people and we deliver it in a meaningful way. Whether your audience is across the world or just around the

IGNITING BRANDS

Igniting brands is more than a play on our name – it truly is the purpose behind what we do. Our approach was developed specifically to give brands the energy to reach their highest potential.

SAMPLES OF OUR BRANDING AND ADVERTISING PROJECTS

Effective brands transcend logos, advertising campaigns, and social media presence. Sure, images and messages are important, but the real power in brand today lies in creating dynamic, meaningful relationships with customers that evolve over time.

The most successful brands start an ongoing dialogue with people that — through a compelling mix of seamlessly connected products, services, experiences, spaces, and digital interactions — fosters curiosity, trial, love, and loyalty .

The longevity of our relationships is built on trust, respect, and the impact of what we accomplish together. GEMI 7 " is proud to be currently working with some of leading international and local brands.

G7M with ASGC

ASGC Construction is a vertically integrated construction conglomerate. Founded in 1989, the group's corporate headquarters is in Dubai, UAE. ASGC has offices in Egypt and the United Kingdom. The company owns the majority of its supply chain and utilizes mostly in-house resources, giving it a high degree of control over project quality and timely delivery. ASGC has grown and developed over the last 30 years, to become an industry leading construction company for the execution of turnkey special projects in the UAE. From scratch we are proud that we did Advertising materials for ASGC.

ASGC HAS DELIVERED

ASGC Corporate Profile 56

With the complex nature of ASGC Group's mega projects, quality lies in the center of all our operations. We believe in rounded approaches, incorporating granular details to ensure that every step provided by us meets or even exceeds clients' expectations.

Quality of Construction	11
Quality of Services	10
Quality of Operations	10
Quality of Internal Processes	10

We have established steps for ourselves that we cannot do in order to ensure that every project, service and transaction meets these standards. We have developed a series of procedures and processes that reflect our quality and on-time delivery ethos. These are available to all workforces. Regular updates and training sessions are held to ensure meeting, exceeding and continuously improving these standards.

We are ISO 9001:2015 (Quality and Safety), ISO 14001 (Environment) and Bureau Veritas ISO 9001:2015 accredited. We were one of the first companies in the UAE to gain the accolade of excellence.

From project start to finish, we interact closely with clients and consultants to fully establish all project requirements. We ensure that contracts of service, including requirements, inspection and testing, handover and all other on- and off-site activities are fully planned, established and implemented.

TECHNOLOGY

We are disrupting the norms by applying the latest technological advancements and becoming more productive, more efficient, and more cost-effective to how we deliver our work. Active use of 3D 4D modelling, Smart sites Surveillance and Analytics, Technologies like RFID, GPS and Blockchain, BIM Solutions, Cloud-based technologies such as, SaaS suite, Data the cloud, Oracle Human Capital Management helps in implementing our vision of remaining at the forefront in the industry by integrating 'Digital' into each phase of our operations.

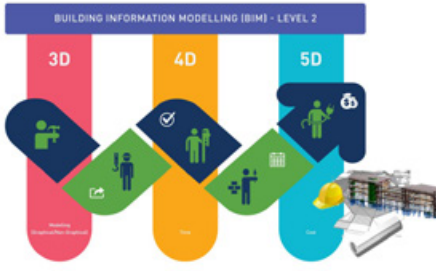

Digitalization

ASGC is moving rapidly on a journey toward its digital culture. To ensure the transformation will be eternal and fully operative, we focused on automating our core business processes into integrated systems across all ASGC Construction and Supply Chain operations.

Building Information Modeling (BIM)

To ensure success, all enterprise processes should be digitized and connected. We started with a BIM Building Information Modeling 3D-based Enterprise Resource Planning System that automates tender/bid preparation, procurement, cost control, project budgeting, financials and human resources processes. This automation, tied to strong business processes, allows us to consolidate data in real-time and create digital dashboards depicting ASGC Supply Chain and Project success indicators. With that foundation in place, we can connect core information to operational systems and digital innovations.

Setting the foundation for design to build projects like the Expo 2020, BIM 3D is becoming the norm. BIM is comprised of a 3D Spatial Representation of the Structure + 4D Construction Schedule Sequencing, visual depiction, which based on plan view is actually 3D Cost Data for cost estimation on bids, purchasing, installing, operating, maintenance – cost is continually updated compared to plan.

For best pre-build preparation, we connect BIM to A/B Segmented Road via IoT Sensors of Things. A/B streamlines project processes and gives a detailed view before execution. As the project progresses, Smart Sites with high definition cameras visually inspect the structure. The drives not only identify defects, but also look for safety gaps and compare actual versus planned progress from the planned BIM 4D schedule. In sequence, our ERP calculates and updates the BIM 5D cost capex.

The Sustainability Pavilion is born of a tradition of remarkable architecture built for the world exposition stage. The Pavilion is set adjacent to the Sustainability Zone of Expo 2020 Dubai Site, acting as a primary anchor to one of four main entries to the Expo site.

The project's remarkable architectural structure embeds solar panels and rotating solar trees that will allow the production of 45Mwh of electricity a year. Excess power will be fed into the national power grid. It will also produce up to 22,000 litres of water a day, extracted from atmospheric humidity and recycled grey water.

The pavilion will exceed Leadership in Energy and Environmental Design (LEED) Platinum standards and will be the center stage for Expo's green theme.

HEALTH, SAFETY AND ENVIRONMENT

The health and safety of our employees and everyone else affected by our activities is fundamental to the success of our business.

We strive to align our own business practices and processes through the projects we deliver to our clients. The safety of our people and the communities in which we operate always comes first. We believe that our long-term success as a business is dependent upon the ability to keep our workforce and members of the public safe. Our philosophy is to continually serve as a 'Zero Harm' environment. Accordingly, we enforce very strict health and safety procedures throughout our operations, in the belief that all accidents can be avoided by engineering robust risk elimination protocols. Each operation assesses further controls that may be required to manage the specific risks of their operation to meet the objective of no fatalities.

The success of our focus on continual improvement of our HSE management system is reflected in our British Safety Council membership and OHSAS 18001 (Health and safety) and ISO 14001 (Environmental) accreditations. The majority of our projects have achieved LEED and ESTADAMA accreditation. We continue to provide opportunities for innovation to improve our safety performance. Routine engagement with employees and workers includes health and safety committees, pre-start meetings, on-site safety coaches, discussing job-specific safety risks, and safety toolbox talks, all of which readily demonstrate our priority of working safely.

In line with our culture of care, we undertake activities to enhance the physical and mental wellness of our employees. This includes the provision of preventative health measures, sport facilities, first aid and emergency services at our worker accommodation camps, and employee well-being programs focused on awareness, support and pro-active management of employees.

Innovation & Technology: Smart Hospital

At New Hal Al-Jamea Hospital, we are keen on using the latest technologies in different healthcare aspects for better diagnosis and treatment of patients and promotion of their health & wellness.

High-Tech Systems

Comprehensive Healthcare Management Information System (HIMS)

A smart system used in New Hal Al-Jamea Hospital created by our software company "MIBS", to support customized inclusive solutions according to hospital requirements, and allows technological easy access for patients when communicating with medical providers, and facilitates better health promotion, to reach wellness.

The system ensures:

- Patient administration
- Patient care
- Billing and complete financing
- Supply chain
- Human Resources
- CRM Module

Quality Management System

Including Policy and procedures, Checklist, workflow, and business process automation to improve the desired health outcomes, maximize patient safety, and enhance the patient experience.

Patient Infotainment system

Through Inbedside Terminal we provide Medical Record Management, to give the patient easy access to all the software applications and to provide medical staff with access to clinical records and workflow data.

The Founder Dr. Darweesh Zagzoug (1981)

The story began in 1984, when a visionary storyteller began to write his own success story in the healthcare sector in the region; Dr. Darweesh Zagzoug, the Founder and Chairman of the Board of Andalusia Group, who was influenced by Al Andalus empire, the center of enlightenment, integration, and prosperity centuries ago; he decided to put "Andalusia" as a title of his story. Jeddah city has witnessed the first cornerstone of the Andalusia Group empire, with a concrete top-notch value-centric organizational structure, forming the main pillars Andalusia are depending on till our roadways.

The Futuristic Developer Dr. Hazem Zagzoug

With the entrepreneurship spirit rooted in his mind, the steady, yet ambitious, expansion plans were always on his horizon, creating vertical expansions with a complex matrix of diverse business units, along with horizontal expansions with hospitals and clinics in Cairo, Alexandria and Jeddah.

"Our growth is powered by a unity of innovation and ambition"

Dr. Hazem Zagzoug

Luxurious hospitality

Providing multi-levels of service to our patients starting with Bercal suites, VIP rooms, waiting lounges, cafeteria, GYM, sound isolation system, and a lot of other leisure facilities.

VIP rooms, waiting lounges, cafeteria, GYM, sound isolation system, and a lot of other leisure facilities.

ORDOchao operated in the fields of BIM, and Enterprise applications. from scratch we are proud did branding , corporate identity , tag line and advertising materials.

FUTURE REALITY

ORDO chao

We developed our first solution as an integrated platform for both real estate developers and interior designers to integrate their work together to have the best possible way to visualize and show the properties to the potential customers.

**YOUR COUSTMER WILL
LIVE EVERY THING**

This integration for both of real estate developers and interior designers will deliver the best user experience, visualization and satisfaction for the customer as much as exposure for them in the market with the new cutting edge technology.

**YOUR COUSTMER WILL
CONTROLLING EVERY THING**

FUTURE REALITY

REVALUATION FOR YOUR BUSINESS

IMAGINE YOUR FUTURE HOME

Explore the space and engage the client as if they were actually there: open doors, building walls, turn on the lights, look inside the cupboards.

**YOUR COUSTOMER WILL
LIVE EVERY THING**

We developed our first solution as an integrated platform for both real estate developers and interior designers to integrate their work together to have the best possible way to visualize and show the properties to the potential customers.

YOU CAN ?!

The real estate developers can have their compounds and real estate projects shown in Virtual Reality in an interactive game-like platform for their customers to:

- Move around their properties or even navigate the compound as whole by flying over it to see the landmarks, the distance between his unit and the land marks and other stuff.

**YOUR COUSTOMER WILL
CONTROLLING EVERY THING**

This integration for both of real estate developers and interior designers will deliver the best user experience, visualization and satisfaction for the customer as much as exposure for them in the market with the new cutting edge technology.

CUSTOMIZE THE FURNISHINGS

Change the styles and layout of furnishings to suit the taste and preferences of the buyer. You can also show the property empty..

With OCVR your coustmer can add items to decor , changing furniture color , take full imagination about the house

**YOUR COUSTOMER WILL
EXPLORING FUTURE**

The interior designers can show their work inside each unit developed for the real estate developers where they can put their best designs in the Virtual Reality platform and the customers can change and navigate through the designs and pick the design and designer they did like.

**REAL - WORLD
AWARENESS**

Front - facing camera blends real - world elements into the virtual world
110 Degree field of view for captivating immersion and 2160 X 1200 combined resolution and 90 Hz refresh rate deliver eye - popping graphics and smooth action

Who can benefit OCVR technology?

- Real estate developers
- Interior designers
- Furniture producers
- Kitchens producers

We developed our first solution as an integrated platform for both real estate developers and interior designers to integrate their work together to have the best possible way to visualize and show the to the potential customers.

**YOUR CUSTOMER WILL
SEE EVERYTHING**

OCVR
SOLUTIONS

IMAGINE YOUR FUTURE HOME

Explore the space and engage the client as if they were actually there: open doors, building walls, turn on the lights, look inside the cupboards.

FUTURE REALITY

MAP

G7M with ABC logistics

ABC the real bridge connecting the universe

A for Arab who can connect the world together as they are at the center of the globe, the Arab world controlling about 45% of the global imports and exports that's the reason why we started from Egypt across the kingdom of Saudi Arabia passing by the united Arabian emirates to be the leaders in this career. B for the bridges that we establish across the world and even across the states of the same country as we aim to materialize the concept of the small-village world.

C for this company which takes your business as a personal responsibility, it's not only a matter of business, it's a matter of serving you the way makes you fully satisfied. from scratch we are proud did branding and corporate identity.

G7M with Global Gourmet

Global Gourmet was founded in 2010 from a group of egyptian business leaders and investors to work in the field of restaurant ownership and management and their goal was to change the concept and standards of hospitality and luxury restaurants in Egypt. from the choice of the best places through the quality of food and the most important thing is the distinguished service for the customer and the employee. From scratch we are proud did branding , corporate identity and Advertising campaign for Global Gourmet.

WHO ARE WE

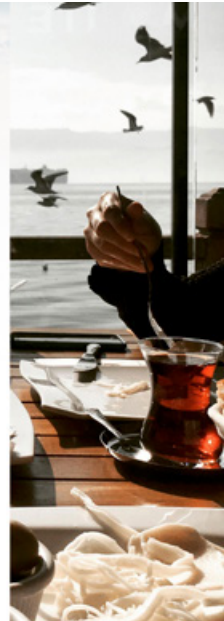

We have chosen to specialize in owning and managing restaurants of exceptional quality, and our goal is to be known as the company that manages the finest restaurants wherever we are, while making a profit at the same time .

We create restaurants with great value, high-end design and finishes, and are supported by an ethos of personal service, and that allowing global gourmet to meet the needs and tastes of our discerning customers, and maintain our position as one of the finest restaurant management companies .

Our faith

Our greatest asset and the key to our success... they are our people.

We believe that each of us needs a sense of dignity, pride, satisfaction and satisfaction with what we do, and since customer satisfaction depends on the concerted efforts of many, we achieve the utmost when we work together in a spirit of cooperation and respecting.

Change is the only constant

Behavior

Our beliefs are expressed in the deepest sense in the way we treat each other and in the role models we provide to each other. Also, in all our dealings with our guests, colleagues, and co-workers, we wish to treat others as we would like to be treated.

Leila Mn Lebnan

About Leila Mn Lebnan

authentic homemade Lebanese dishes, beverages and sweets prepared with fresh, local ingredients. Opened in 2006.

Leila Mn Lebnan Story

Leila's a lady story that grew up in the Lebanese mountains breathing chaste air, surrounded by good people and basking in the peace of mind. Leila spent her childhood in an aromatic kitchen helping her grandmother who wanted to pass on the tastes, the flavors and the blessings the next generation. Together, the grandmother and the grandchild used to collect fresh vegetables; they bought their needs from the market sifting through herbs, spices and authentic treasures from the lands of Lebanon. One day, Leila rode the vehicle, her heart loaded with the bounties she had gathered over the years, and moved down to the city. There, she had yet to be introduced to another type of delicacy brain food. Eventually, Leila found a way to bringing together both worlds by creating the 'Leila Restaurant' that serves Authentic Lebanese cuisine with a twist of today's trends.

A journey through foods that arouse you nostalgia and return you to your grandmother's kitchen

offers an oasis of tranquility , comfort and femininity due to the use of antique wallpaper, wooden cabinets and roses

Leila Mn Lebnan

Kafr Abdo, Alexandria

PROJECT DATA:

By Global Gourmet
Opened: 10 December, 2013
Interior design: Nader Bendier
Dining capacity: 200 Pax

How to succeed

We achieve success if each decision is based on a clear awareness and faith in all our work, and when we associate that conviction with sound financial planning, we expect to achieve a fair and reasonable amount of profit to ensure the prosperity of the company, and to provide long-term benefits for the company, our customers, and our employees.

Our operational principles.

- Providing production and level of service with continuous quality and a prestigious degree in terms of quality and satisfaction of our customers.
- Understand the needs of our customers with great accuracy.
- Training and motivating our working colleagues and ourselves to provide a service full of respect, attention and pride increasingly without neglect or recklessness.

"Treat others the way you would like to be treated."

Or more precisely :

- to realize that helping everyone in the restaurants and the company will work to make the business going forward.
- to help each other to realize our full potential.
- encourage each other to share ideas to be more effective.
- to be very precise about the needs of each of us and to create an intimate atmosphere to encourage Satisfactory and long-term employment.
- Expect an appropriate and acceptable outcomes for our efforts to continue to excel.

COMMERCIAL INTERIOR DESIGN AND MANAGEMENT

In the mid-to-late 19th century, interior design services expanded greatly in industrial countries as they grew in size and prosperity and began to branch out of wealth to cement their new status. Large furniture firms began to offer interior design and management, offering full house furnishings in a variety of styles. In the mid-century to 1914, when this role was usurped by independent, often amateur, designers. This paved the way for the professional interior design in the mid-20th century.

Illustrated catalog of the James Shoolbred Company, published in the 1950s and 1960s, upholsterers began to expand their business more broadly and in artistic terms and the public. To meet the growing demand for commercial buildings, these businesses employed builders, joiners, plasterers, carpenters, as well as engineers and technicians to design and construct buildings with prints for different lavatories, hotels, and public buildings. They also employed builders and well as engineers and technicians to design and construct buildings with prints for different lavatories.

At Gamma Pack we have a creative and unique approach to manufacturing. We have some of the brightest minds that the Nile Delta has to offer working together to achieve our dreams of becoming one of the best in our field.

Our application of experience and creativity coupled with new technology have been the reason behind our success. Gamma Pack is the first company to extrude PET and RPET in multilayer sheets from Egypt of rigid plastic containers for food packaging to the UK Market. We are also the biggest exporter of PET and RPET in multilayer sheets from Egypt. Gamma Pack has over 150 proud employees from this small town side El Cairo, in a small town working every day to bring to our customers all the packaging solutions they need. The environment is constantly looking for more ways to reduce our carbon foot print and deliver our products with quality means. Our Gamma Pack quality means we use virgin and recycled PET in our recycling line. We use our own satisfaction. For Gamma Pack, quality means we will always go the extra mile to provide top quality service. We extended our commitment to quality and hygiene by becoming the first manufacturer of food containers in Egypt to be accredited to standards set by the British Retail Consortium (BRC). Gamma Pack is certified with ISO 9001:2008, and BRC/IOP.
